

# model 2000SM

Hydration Station

## FEATURES & BENEFITS

### SENSOR OPERATED

Electric sensor allows for touch-free hygienic operation, eliminating the need for manual activation under a number of circumstances.

### ANTIMICROBIAALLY PROTECTED

Specific components are antimicrobially protected using the natural protection of silver which helps protect against the growth of mold and mildew on those treated components.

### QUALITY CONTROL

The HydrationStation™ is pre-built and fully water and pressure tested to ensure no leaks and proper function for reduced installation time and added peace of mind.

### SERVICING

Durable ABS plastic front panel allows simple access to internal components. Hidden lock and hinges discourages vandals.

### FINISH

#4 satin stainless steel cabinet can be easily cleaned and maintained while also resisting corrosion.

### FLEXIBILITY

Unit can be installed on almost any indoor wall with only a water supply and 110V outlet required.

## OPTIONS

- Waste Strainer: Model 6470, Surface Mount HydrationStation (2000SM) optional drain assembly kit.

## SPECIFICATIONS

Model 2000SM surface mount HydrationStation™ is a wheelchair accessible bottle or cup filling station constructed of a durable ABS plastic face and a 16 gauge, Type 304 Stainless Steel cabinet with a satin finish. It shall feature an electric sensor allowing for touch-free hygienic operation and a 30-second timeout preventing unwanted use, laminar flow to prevent splashing, .8 gpm flow rate for quick fill-up, and antimicrobially treated components to prevent the growth of mold and mildew on those treated surfaces. 2500 gallon carbon based filter, hidden lock and hinges on ABS front panel allows access to internal components and indicator light to notify when filter replacement is necessary. 5' extension cord supplies the 110 volt, 60Hz, and .1 amp draw when in use. A removable water catch basin is provided (this may be converted to a hard-plumbed drain with a retrofit kit).

## APPLICATIONS

Perfect for either public or private indoor settings, the HydrationStation™ is a great fit in areas where aesthetics are important to the overall appeal of the architecture. Specifically, this type of wall mounted bottle filling station would be ideal in settings such as: office buildings, airports, schools and other locations in and around office buildings.

Model 2000SM complies with ANSI A117.1 when properly installed. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65 and the Federal Safe Drinking Water Act. Product is compliant to California Lead Plumbing Law (AB 1953). Model 2000SM is Certified to the Standards for Safety Electric Plumbing Accessories (ANSI/UL 1951) and Industrial Control Equipment (CSA C22.2 No. 14)
